REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the claims are allowable because the prior art fails to teach a utility knife with a handle and a blade holder wherein the blade holder comprises a rear end and a front end, said rear end being pivotally mounted to said handle as set forth in claims 1 and 11.

2. Regarding claims 1 and 11, Kassel (1,782,901) discloses a utility knife comprising a handle (15) and a blade holder (28,33), said blade holder (28,33) being pivotally mounted on said handle (15) for movement from an unfolded position to a folded position, said handle (15) having a space (19) adapted to receive at least a portion of said blade holder (28, 33) when the blade holder (28, 33) is in its fold position, said blade holder (28, 33) comprising a main wall and a guard wall (33) pivotally mounted on said main wall (28) for movement from an open position to a close position overlying said main wall (28), said main wall (28) having means to hold a blade (31) thereon whereby the blade (31) is interposed between said main wall (28) and said guard wall (33) when said guard wall (33) is in its closed position, said blade holder (28, 33) comprises a rear end and a front end, said front end comprising said guard wall and said main wall, said guard wall (33) is pivotally mounted to said main wall (28) on a pivot (32), a blade lock assembly (39) is mounted for pivotal movement relative to said main wall (28) and guard wall (33) from an open position to a close position overlying the main wall (28) and guard wall (33). Kassel fails to disclose the blade holder

comprises a rear end and a front end, said rear end being pivotally mounted to said handle as set forth in claims 1 and 11.

The above prior art by itself or in combination with the other prior art cited fails to teach the claimed invention set forth in claims 1 and 11.
